

# Brand Context: PR Accounts

Reference file for Claude Code. This describes the brands I run PR and communications for, so you have the positioning, spokespeople, on-record facts and narrative for each before you take on any task (pitches, releases, story angles, media lists, trackers, decks).

Rules when using this file:

- Treat the numbers and quotes marked "on record" as the only figures safe to publish. Everything marked "to verify" or "internal" must not go into any external-facing draft without me confirming it.
  - Do not invent journalist names, outlet contacts, stats or quotes. Attribute quotes only to the named spokespeople below.
  - Default to Indian English and the Indian media and PR context. No em dashes.
- 

## 1. Devyani Jaipuria (lifestyle / personal branding)

Positioning: education entrepreneur and lifestyle figure; the brief is high-end personal branding, not corporate PR.

Snapshot:

- Founder of Dharav High School (DHS), Gurugram. Also associated with DPS International (Gurgaon and Jaipur) and healthcare brands Cocoon and Cryoviva. (to verify before publishing)
- Family background cited internally: daughter of Ravi Jaipuria (RJ Corp, Varun Beverages). Deliberately low-profile family. Treat as internal context, do not lead media pitches with the family link unless cleared.

Personal-branding narrative, three tracks:

- Business: senior profiling in the business and lifestyle press (reference targets: Mint Lounge, Moneycontrol, GQ).
- Lifestyle: mother of three and a serious art collector. Reference template is the Neerja Birla style of lifestyle PR (art collection, GQ-type features).
- Government relations: invitations to top-tier government and policy platforms (e.g. Semicon India, BRICS, Ministry of Culture / Education programmes).

Watch-outs: she is low-profile by choice, so angles must be tasteful and earned, not pushy. Confirm every biographical detail before it goes on record.

---

## 2. Dharav High School, Gurugram (education / school)

Positioning: progressive, future-ready K-12 school in Gurugram, founded by Devyani Jaipuria.

Spokespeople:

- Ms. Ritu Jawa, Principal, Dharav High School, Gurugram. 20+ years in academic administration, curriculum innovation and faculty development; focus on holistic, student-centric, values-led education.
- Devyani Jaipuria (founder) where a founder voice is needed.

The business objective behind the PR:

- The metric that matters is admissions. Admissions season opens in October, so activity should ladder up to admissions, not vanity coverage.
- Shift away from routine authored articles (treated as spent for this brief) towards mom-influencer and lifestyle PR, which has driven admissions before.

Lead angles:

- The school's large indoor sports complex, pitched as one of the biggest school sports complexes, gradually opening to outside professionals and coaches.
- Tie that to the grassroots athlete push: the 4-to-14 talent identification programme, the athlete stipend, and India's 2036 Olympics / 2030 Commonwealth Games ambitions. Position DHS as ready-made infrastructure for grassroots athletes.

On-record performance (14 Dec 2025 to 14 Jun 2026, two quarters):

- Approx. INR 1.73 crore earned PR value.
  - 67 coverages delivered against 24 committed.
  - Mix: Press Release 57%, Article 16%, Industry Story 16%, Interview 11%.
  - Key placements include The Economic Times, The Times of India, News18, ABP Live, The Tribune, Financial Express, BW Education, India.com.
  - Upcoming initiatives flagged: a journalist/editor FAM tour of the campus.
- 

## 3. Six Brothers Distilleries (alcobev)

Positioning: reviving Mahua (the mahua flower spirit), a traditional Indian alcoholic beverage that was restricted under British rule.

Narrative / core angle:

- The survival-and-reinvention story: how the drink outlasted the Raj, and how the founders are now reinventing it and taking it global.

- **Ambition:** establish Mahua as a globally recognised Indian heritage spirit, the way tequila represents Mexico. Lead with heritage, revival and provenance.

Targets: Mint Lounge and specialist alcobev / beverage media.

To verify before pitching (no brief or profile on file yet): founders' names, product range, launch or milestone timing, and spokesperson details. Do not draft quotes for this brand until a named spokesperson is confirmed.

---

#### **4. Devan's / DeVANS Modern Breweries (alcobev)**

Status: no client brief on file yet. The block below is public background to confirm or replace with the client brief before any of it is used in a draft.

Public background (to verify):

- DeVANS Modern Breweries Ltd, an established Indian alcobev company based in Jammu (brewery in Samba, near Jammu; another in Kotputli, Rajasthan). Leadership: Prem Dewan, Chairman and Managing Director.
- Flagship brand: Godfather beer (launched 1984). Other brands include Six Fields (wheat/premium beers such as Blanche, Cult, Pilsner, Brute), Kotsberg Pils, and GianChand single malt whisky. Expanding into premium gin, blended whisky, vodka and RTDs.
- Distribution across 20+ states, exports to several markets, and a run of recent product and awards news (e.g. Godfather Super 8 gold at Asia Beer Challenge 2025, a "self-chilling beer can" campaign).

Needed from me: the actual PR brief, objectives, spokesperson and any embargoed news. Until then, no figures, quotes or launch claims from the above go into external drafts.

---

#### **5. Mast Banarasi Paan (F&B)**

Positioning: one of India's largest organised, 100% tobacco-free paan cafe chains; paan reframed as a contemporary, experience-led dessert format.

Spokesperson:

- Mr. P.N. Thakur (Panchanand Thakur), Founder and CEO. BHU graduate, MBA in Marketing and International Business, early stint at Hindustan Times. Spent close to three years on R&D before launching the brand in 2016.

Business snapshot (on record, from the 10 Sep 2026 release and company profile):

- Established 2016, headquartered in Noida.
- 400+ outlets across 20+ states and 320+ cities. Serves close to 1 lakh paans daily.

- Projecting INR 50 crore in annual franchise network sales in FY 2026-27.
- Plans to scale to 600 outlets over the next two years via a franchise-led model.
- Exploring strategic growth capital (a fundraise) to fund tech, supply chain, brand building and the franchise ecosystem; also evaluating international markets with large Indian diaspora.
- India's paan market is estimated at over INR 5,000 crore, largely fragmented and unorganised.
- 100% tobacco-free portfolio: traditional meetha and sada paan plus contemporary variants for younger consumers. Everyday variants INR 30 to 100; premium options up to INR 2,100. Catering for corporate and private events; delivery via Swiggy and Zomato.

PR objectives:

- Push the INR 50 crore FY27 network-sales milestone and the fundraise-and-expansion story.
- Own the organised, tobacco-free, franchise-led F&B narrative in a traditionally unorganised category.
- Develop a separate buzz angle around the premium gold/silver-coated paan (approx. INR 2,100 to 2,300). (internal, not in the current release; treat as a distinct angle to build)

Numbers to reconcile: an internal briefing referenced 450+ outlets and a "50 Cr ARR" milestone. Use the release figures (400+ outlets, INR 50 crore FY27 network sales) as the on-record numbers unless I confirm otherwise.
